

Standard Bar/Restaurant/Private Office/ Business Viewing Installation

The standard professional commercial installation for bar/restaurant (BAR) / private office (POL)/ business viewing (HOS) buildings will include the following:

- Mounting the DIRECTV® Multi-Satellite System 18x20 ODU on the commercial establishment's roof, utilizing a Non-Penetrating Roof Mount (NPRM) with the associated rubber mount and ballast.
- In limited markets (for the 72.5 degree markets), the basic installation includes two dishes.
- Grounding the DIRECTV Multi-Satellite 18x20 ODU in accordance with NEC Article 810-21.
- Installing up to 150 ft of RG-6 cable and amplification.
- Routing of cable through an approved roof penetration and following an approved commercial cable run (wire chases, drop ceiling, vertical air shafts, etc.).
- Connection of one DIRECTV IRD per TV on site. Limit 3.
- Connecting DIRECTV IRD to phone jack if receiver is within 25 feet of phone jack. (Currently required for phone number verification.)
- Maximizing signal strength and activating the account for DIRECTV® programming.
- At least 30 minutes of customer education on the operation of the system.
- If the commercial establishment requests additional work that is not included in the standard professional commercial installation as outlined above, it is recommended that the dealer negotiate this work directly with the customer.

Example of work that is not included in the standard professional commercial installation is listed below.

- Additional RG-6 cable over 150 feet.
- Plenum cable of any length.
- Phone jack wiring where existing service is more than 25 feet from receiver.
- Any enhancements to existing phone system.
- Connections to stereo, VCRs and/or various audio components not co-located with the receiver.
- Special moldings or other cosmetic hardware used to hide exposed cables.
- Installation of multi-switch (N/A if DVR installation), or additional IRD installation of more than 3 IRDs.
- Additional TVs that are split out on a channel 3/4 loop (convenience outlets).
